club!**

This summer, we invited children to take part in a free cricket club for ages 8-11!

Supported by Oxfordshire Cricket, the Dynamos cricket programme taught children how to play cricket through fun games and challenges.

The children had fun hitting the balls as far as they could, and scoring lots of runs! This was a wonderful activity for the local community, keeping children active during the holidays.

*“This was more fun than playing cricket in school!”*

# Naturehood- Summer holidays

We welcomed the Earthwatch Naturehood team back to our youth club during the summer holiday sessions!

The children and young people visited Rivermead Nature Park in Rose Hill, a fantastic green space that a lot of the children had not visited before.

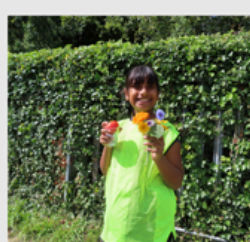

The group tried pond dipping, looking for water based creatures and also got to learn about water testing.

Over the next couple of weeks, the groups visited our allotment, where they harvested lots of fruits, vegetables and flowers and even planted some bulbs for next year.

We had a wonderful time, having fun and being out in nature during the lovely warm weather!

# Summer film club

**film oxford**

Funded by The National Lottery Community Fund (Awards for all), Film Oxford and Rose Hill Junior Youth club launched a free 8 day summer filmmaking club for ages 7-16, at the beginning of the summer holidays.

18 children took part in the club, building friendships and learning new skills like storyboarding, filming, editing, making music, marketing and design.

The children created their own film which was shown during a free community film event during August.
